# 2004 Yearbook Dedicatee

Mrs. Graziano was born on November 8 and grew up in Quincy with her parents and two older brothers. She attended Arch Bishop Williams Highschool and went on to attend Emmanuel College. On May 7, 1983 Mrs. Graziano married her husband, Jim Graziano and now has three children, Matt, Martha and Jake. She taught at Arch Bishop Williams, Quincy College, and of course, West Bridgewater Middle Senior High School.

# Mrs. Mary Graziano

As we thought about who we should dedicate this yearbook to, we considered many people, however, only one exemplified what a dedicatee truly is. We did not want to choose just a teacher, but someone who has experienced our high school years along side us. Someone who has put in their time and effort to help and support us in achieving our goals. Taking these aspects into consideration we decided upon our dedicatee.

The Class of 2004 would like to dedicate our yearbook to Mrs. Mary Graziano because she has dedicated her time to us. From our sophomore to our senior year she has supported everything we have and will continue to do throughout our lives. Mrs. Graziano was always involved in our academic and personal efforts when we needed her help and advice. We would like to thank Graz deeply for everything she has done for the class of 2004.

I've come a long way, growing up in the wilderness, being raised by wombats, and still co-existing with humans. But here I am today with so many memories. I C Dub, Modern Demise, manhunt, the list goes on. Hopefully the memories always remain, unless I fall into a coma or something...now I'm just gonna ramble...yeah....

*"I have never let my schooling interfere with my education." - Mark Twain*

Just another high school senior. Nothing special. I'm in the top 20% of my class, but such things are of nominal consequence. Just because you do well in high school doesn't mean you'll get into a good college. And just because you get into a good college doesn't mean you'll find your dream job. You aren't even guaranteed a career related to your major. A rational optimist will hope for his or her dream job and expect some dead-end, monotonous form of employment with mediocre pay and virtually no recognition. The latter is an unfortunate outcome. However, just because your line of work is meaningless doesn't mean you can't give your life meaning. Everyone starts with a certain amount of potential, and a lot of people leave their mark on the world. I'd like it if your grandchildren would one day learn my name in their history class. Still, I'd prefer anonymity over notoriety. Wouldn't we all?

2001-2002

So many good times throughout my school years it is hard to pick just one. My favorite year was 2001-2002. Science classes, books and reading, going to the movies. Mr. C. is the best teacher in the house. 10th grade English class was great, the Mac. But the best year is the year so many things start, so much funnier, so much going to do for the new year. 2001-2002
